TORBEN ELLEGAARD *Board candidate – Technology and project-heavy companies*

Engineer and HD(O) with 30+ years in energy, technology and engineering companies – including 10+ years at Ørsted and most recently CEO and co-founder of the AI company Suverita ApS. Bridges technical depth, AI understanding and strategic business development. Seeking board positions where these skills create real value.

MOTIVATION FOR BOARD WORK

I am motivated by contributing to professional boards that create real momentum. With experience from growth companies, owner-managed companies, a large energy group and an AI start-up, I thrive where strategy, execution, technology and digital transformation are central. I see board work as a chance to challenge, support and strengthen the executive team – with a focus on long-term value, sound governance and continuous improvement.

WHAT I CONTRIBUTE

- Strategy and execution in growth and turnaround
- Commercialisation of complex products and technologies
- Due diligence, M&A and partnership strategies
- Business sense with deep technical insight
- Leadership and high-performance teams
- Hands-on AI: implementation and model building (CEO, Suverita ApS)
- AI strategy and technology roadmap at board level
- AI maturity and digital transformation
- Lean, efficiency and performance improvement
- Constructive board–executive interplay

BOARD EXPERIENCE

Hydraulico A/S	Board member (2026 – present)
Flow-Elnet A/S	Chair (2024 – 2026). Power distribution/DNO.
Maskinfabrikken Silkeborg A/S	Board member (2015 – 2024). Revenue approx. DKK 100m. Plants in DK and LV.
NISSEN Energi Teknik A/S	Chair (2016 – 2020). Energy technology.
Ørsted / DONG Energy	Chair: Elsamprojekt Polska, safety committee (700 staff). Member: CEC Ltd. (UK), IT committee.
